When you support KNOX, you change lives!

Environmental Education Coordinator, Lauren, with the Keney Park Sustainability Project goats!

When you support KNOX, you change the lives of children. **Because of you, KNOX was able to provide ONE TON of fresh, locally-grown produce to Hartford schools in 2018!** Gaia's Guides, **KNOX's free, hands-on environmental education program, engages more than 900 Hartford students each year** with interactive activities that explore the city's natural resources, teach about sustainable food production, and build a personal relationship with nature.

Environmentally connected children live healthier lives and engage in positive environmental behaviors.

Growing their own vegetables provides exercise and encourages children to make healthier choices. When children participate in gardening they have an opportunity to "taste what they grow". Not only are they excited to eat foods they grew, they are more likely to choose them as healthier lunch options when they are available in the school cafeteria.

We need your help to ensure that Hartford schools continue to have access to the vital food and educational resources that KNOX provides. Your gift will help KNOX expand and maintain greenhouse space to give our urban farmers the ability to increase their impact and provide students with year-round access to fresh vegetables. It will

give even more students at more schools the chance to learn how to grow their own healthy foods at home with their family and neighbors.

Your gift will transform the lives of our children, our neighborhoods, and our city.

Thank you! We couldn't do it without you!

P.S. **Go green and donate online**, please visit <https://www.knoxhartford.org/donate/>

KNOX in the Community

"My name is Linda and I am a member at Keney golf course. I just want you to know that I think the world of the gentlemen that work on the fairways and greens there. They are hard working young men who are so nice. Everyday I look forward to seeing them because they are polite, easy going and they always say "Hi" and take a little time to chat with my brother and I. They are just plain good guys! I wanted to share this with you because I'm not sure they get the recognition they deserve as being great guys who work hard at keeping the course in tip top shape!"

Thanks for your email Linda!

If you see our crews out and about, please share a photo with us!

KNOX hires Clasina Jones as Advancement and Marketing Director.

KNOX has hired Clasina Jones as its new Advancement and Marketing Director. Clasina comes to KNOX, Inc. from YWCA Hartford Region, where she was the Grants Manager for almost 3 years, and previously worked as the Development Assistant for Operation Fuel. She has served on the Board of Directors for the Farmington Valley Arts Center since 2013.

Clasina has a background in Anthropology and Human Geography, and is excited to combine her 12 years of non-

profit and community engagement experience with her passion for urban agriculture to help create a healthier, more secure food system in Hartford.

Clasina lives in West Hartford with her husband, children and two dogs. When she isn't gardening, she enjoys traveling the world and creating upcycled mixed media art.

Houseplant Happy Hour! Succulents
